

PROTECTION FOR **YOUR CABINETS.**

Xtreme Mats is an under the sink custom-fit mat uniquely manufactured to safeguard any cabinet from water damage, product spills, stains, scratches and much more. We have specifically designed our mats to offer maximum protection by creating a product that can hold up to 3.1 gallons of water, thus reducing the potential for water damage to the cabinetry and flooring surface. In addition to durability, we meticulously created channels in the mat that will direct any liquid to a water sensor (sold separately) that will siren when liquid is detected. Our customized mats are sturdy, pliable and made from polyethylene through an injection mold process free from harmful toxins and VOCs. Xtreme Mats is a one-of-a-kind mat so durable and long-lasting that we offer a lifetime product guarantee.
